## Top Skills

Kedro  
Azure Functions  
Linear Programming

## Languages

Dutch (Limited Working)  
English (Full Professional)  
Serbian (Native or Bilingual)  
German (Limited Working)

## Certifications

Microsoft Certified: Azure Fundamentals  
Sigma Partner Delivery Fundamentals

## Publications

Analysis of Lamarckian Evolution in Morphologically Evolving Robots  
Adapting a real-time 3D desktop game to run in an integrated environment consisting of a set-top box and mobile phones  
Analysing the Relative Importance of Robot Brains and Bodies  
Lamarckian Evolution of Simulated Modular Robots  
Porting operating system Firefox OS for the MIPS32 architecture

# Dr. Milan Jelisavčić

AI Product Developer @ANDDigital | Ph.D. in Evolutionary Computing | Leading AI strategy for intelligent sales tech | Pioneer in adaptive AI & robotics.

Amsterdam, North Holland, Netherlands

## Summary

The World is not static, neither am I. After three years of experience in the industry as an Embedded Engineer, I shifted to an academic career in Data Science and Robotics. Skills I gained in academia as an Evolutionary Robotics Researcher are invaluable, however, I do not see myself as a part of the academic community. My skills can be utilised better developing applied solutions and improving working processes. My life's passions are swing dancing and bouldering, both crafty and imaginative hobbies; that I aspire to bring to my work environment.

## Experience

### AND Digital

AI Product Developer  
October 2024 - Present (1 year 8 months)  
Amsterdam, North Holland, Netherlands

### Salesteq Inc.

Head of Artificial Intelligence  
October 2023 - Present (2 years 8 months)  
Amsterdam, North Holland, Netherlands

### bliq

Product Owner / Lead Data Scientist  
March 2023 - September 2024 (1 year 7 months)  
Weesp, North Holland, Netherlands

Developing the whole infrastructure and AI models for daily production, consumption and battery management of Bliq installations.

### City of Amsterdam

Freelance Developer  
November 2022 - February 2023 (4 months)  
Amsterdam, North Holland, Netherlands

ABN AMRO Bank N.V.  
Senior Data Scientist  
September 2021 - October 2022 (1 year 2 months)  
Amsterdam, North Holland, Netherlands

Hello Mentor  
Youth Mentor  
June 2021 - December 2021 (7 months)  
Amsterdam Area

Stedin  
Data Scientist  
April 2019 - September 2021 (2 years 6 months)  
Rotterdam Area, Netherlands

The work includes the development of ML models for the high- and mid-voltage electric grid.

The goal was to harness several Stedin data sources, report on the quality, and investigate the possibilities and accuracy of the models for the final deployment.

Vrije Universiteit Amsterdam (VU Amsterdam)  
Researcher PhD Candidate  
September 2015 - February 2019 (3 years 6 months)  
Amsterdam Area, Netherlands

The study includes the implementation of a futuristic robotic system in which individuals can autonomously adapt their behaviour (or behaviours) and improve their bodies over successive generations, by means of evolution. The work is based on a long-term vision of the Evolution of Things, a concept for evolutionary systems in which the subjects of evolution are physical artefacts.

X+Y  
Co-Founder  
April 2018 - December 2018 (9 months)  
Amsterdam Area, Netherlands

The mission of X+Y is to empower data scientists to make impact for their industry and for the society with the newest academic insights. How we do that? We are a freelance agency where we use the profit to fund research projects that we and our freelancers are interested in.

For more information go to: [www.xyplus.nl](http://www.xyplus.nl)

RT-RK

2 years 10 months

Embedded System Engineer

August 2013 - September 2015 (2 years 2 months)

Belgrade

- \* Development of Eclipse-based IDE for Lua programming.
- \* Porting and adapting a system software for MIPS32 architecture on an emulator and a device.

Intern

December 2012 - July 2013 (8 months)

Belgrade

Development of a real-time 3D game in an integrated environment consisting of a Android set-top box and mobile phones.

---

## Education

Vrije Universiteit Amsterdam (VU Amsterdam)

Doctor of Philosophy (Ph.D.), Evolutionary Robotics · (2015 - 2019)

University of Belgrade

Master's Degree, Computer Software Engineering · (2011 - 2013)

University of Kragujevac

Bachelor's degree, Computer Engineering · (2005 - 2011)
